TROUBLE AT YORKVILLE.

Discrimination Against Miners is Al-

leged by Some of the Men.

Ohio and Pennsylvania Coal Company's mines at Yorkville, left their work

Tuesday, until a slight difficulty is set-

tled. Some of the men claim that the operators of the machines used in the

mines for digging the coal and the

management have been discriminating

ng out the coal in all the rooms

and that in other portions of the mines they have been running steadily. The men will not return to work until the machines have cut the coal in all the rooms. About one hundred men have been employed and all stopped work. It is thought that everything will be settled so that they may return to work this morning. The men demand that the machines be run for all alike and that no partiality be shown.

Paving Stopped.

The paving of Jacquet , street, in

Bridgeport, was stopped yesterday, ow-

of the curbing. The paving would have

been completed last evening had it not been for the delay. About one-half day's work on this afreet will complete the paying.
